INSPECTION REPORT

October 4, 2021

INSPECTION DATA AT 580 MJ UV

Mr. Matthew Esmaeili
Synergy Prime
15559 Union Ave., Suite 3006
Los Gatos, CA 95032

Purchase Order Number: P21063211; Release Number: N/A
Client Code: SYNG
Account Number: 582894

Test Number: **AQ41222-UA**

Report Number: 3
Test Type: EMMAQUA
Test Location: New River, Arizona
Specimens Inspected: 3
Description: Brown Vinyl Panels

Exposure Type: Exposure testing is performed in New River, Arizona in accordance with ASTM G90, SPRAY CYCLE 3 (EMMA, Night Time Wetting, no water spray in day with night time wetting). The specimens are mounted backed on paper faced plywood, with the uncoded/brown side facing the sun.

The specimens are exposed on an Ultra Accelerated EMMAQUA machine.

Observations, Deviations and Waivers
Notes contained in relevant documents are an integral part of a test, and shall be included by the client in discussions, correspondence, and presentation of test results to a third party. This Test Report represents only one part of the test documentation. Interim reports and other test documentation may have been submitted prior to this date. Test results reported are pertinent only to the items tested and are not relevant to other specimens of the same type, or in the same lot, which are not being tested. Test Reports, and/or other pertinent test documentation, shall not be reproduced, except in full, without the written approval of Atlas Weathering Services Group and so certified by the client.
